About the Bean Foundation

History

Norwin Sherwood Bean was born in Manchester, New Hampshire in 1873 and graduated from the Massachusetts Institute of Technology with a degree in electrical engineering. He served as Treasurer and Chief Executive Officer of Manchester Savings Bank and was a prominent business and civic leader. His many charitable activities included the Manchester Community Chest, Family Service Society, the Institute of Arts and Science, and the Currier Gallery.

Elizabeth Nichols Bean was born in Amherst, New Hampshire and was a member of the Amherst Congregational Church throughout her life. She was active in many charitable organizations, including the Amherst Visiting Nurse Association and Amherst Historical Society. The Bean Foundation began operations upon her death in 1967.

Governance

The Bean Foundation is governed by two Senior Trustees who serve fifteen year terms and five Term Trustees appointed for five year terms. The Board of Trustees makes the final decision on all grant applications. It also oversees the Foundation’s investment portfolio, which was managed in 2019 by Northern Trust.

David H. Chen, Chair
Michael A. Delaney
Kris McCracken
Maria C. Mongan
Anna J. Thomas
Consistent with the wishes of its founders, the Norwin S. and Elizabeth N. Bean Foundation only awards grants that benefit the communities of Amherst and Manchester, New Hampshire. In 2019, 45 applications were submitted requesting $731,690. Twenty-nine grants were awarded for a total of $413,100. Of those, four benefitted both Amherst and Manchester, and the remaining 25 benefitted Manchester. The Foundation received no requests that would have benefitted Amherst alone in 2019. Proposals were submitted in 5 of the 6 funding categories: arts and humanities (3), education (12), environment (1), health (4), and human services (9). In addition, 15 Bean Education Enhancement Fund grants were awarded to Manchester public school teachers toward creative educational efforts.

The twelve grants awarded in the category of education addressed needs of individuals across a range of ages, backgrounds, and abilities. Five grants served youth, four served adults, one served youth and adults, and two benefited older teens and young adults who have dropped out of high school or are at risk of dropping out. Among those awards targeting youth, City Year received a grant to support its ongoing work in eight Manchester elementary schools and its transition into the Middle School at Parkside, Manchester Community Music School was granted funds to establish an after school instrumental music program at Manchester High School Central for youth grades 5 through 8 in collaboration with after school programs at local nonprofits, and an award to Best Buddies supported the School Friendship program which creates one-to-one friendships between students with and without intellectual and developmental disabilities in Manchester. Granite State Independent Living received funding to build stronger workforce partnerships with Manchester area businesses so that there will be jobs for the adults with disabilities whom it trains, and Future In Sight, formerly the Association for the Blind, was funded to provide Manchester and Amherst residents living with profound vision loss with its Lives and Thrives program which teaches those with loss of sight skills to navigate life. Both youth and their parents will be impacted by an award to Granite State Organizing Project to support student leadership development and parent engagement on educational equity issues. The Youth Enrichment Partnership, funded by Granite United Way and the Bean Foundation, received its second of three years of support which built a collaboration among 15 nonprofits to provide increased services to middle school students in Manchester public schools. The services were as varied as training on healthy use of media, new experiences making music, and additional mental health support in schools. One of the significant results of the Youth Enrichment Partnership has been the many new collaborative relationships that developed among the nonprofits involved.

In the category of environment, an award to the Audubon Society of NH toward roof replacement at the Massabesic Center will help keep the Society’s busiest center structurally sound while serving individuals and families from Manchester, Amherst, and the region. In the area of health, three of four awards will help keep children physically active. Valeo Futbol Club, which generally works only with high performing travel teams, was granted short term transitional funding so that it could take over Inti Academy’s recreational soccer program; the Chill Foundation will provide training to at-risk youth on how to overcome challenges in one’s personal life through its snowboarding program; and at Manchester’s Sheehan-Basquil Park in the Center City where volunteers have restored Little League fields, Foundation support of Manchester Central Little League will make team sports with dinner provided after practices available to kids who cannot generally afford to join a team. The project aligns with the Mayor’s and City’s efforts to make the park a safe, family friendly destination for neighborhood residents and visiting sports teams.
In the category of human services, nine grants address a broad range of community needs. An award to Operation Warm will match funds raised by Manchester Fire Fighters to allow them to nearly double the number of warm coats they distribute to community children in need. The Mental Health Center of Greater Manchester received a grant to support its Bedford Counseling Associates Early Intervention Program which provides services to individuals who cannot pay and for whom the severity of their health issues has not yet been determined. Webster House received a grant to hire a consultant to guide development of a strategic plan which will include a transition plan for the executive director, and Building Community in NH (BCNH) received funds to hire and supervise part-time caseworkers with the cultural and linguistic ability to serve Congolese and Bhutanese refugees in Manchester.

Seven 2019 awards target needs of immigrants and refugees and the majority of grants serve low to very low income individuals. Two serve individuals with disabilities. Only one provides services directly to those suffering from addiction, but other nonprofits who were awarded grants in 2019 will provides services to numerous individuals whose lives have been changed by a loved one’s addiction, and two grants contribute to trauma informed care for children from pre-school through high school, many of whom have experienced drug related trauma or lost a parent to the addiction crisis.

The 2019 Bean Foundation Annual Meeting was held at Souhegan High School in Amherst. Superintendent of Schools Adam Steel spoke, addressing the preparation of students for living, competing, and working in the modern 21st Century world. Mark Newton, Souhegan’s Food Services Manager, prepared a delicious and extensive reception for the Foundation’s attendees.

The Bean Foundation Educational Enhancement Fund

The Bean Foundation offers mini-grants to teachers and staff in Manchester and Amherst public schools for creative projects that build upon classroom curricula or provide new opportunities through co-curricular activities. Educational Enhancement grant applications may be submitted at any time during the year, but projects must be completed during the school year. Applicants will receive a response within three weeks of submitting the application. Information and application forms for the Bean Foundation Educational Enhancement Fund may be obtained at www.beanfoundation.org.
